CC: Lee Pollak (PM Rye Brook)

Dear Chuck and Lee,

Attached is a copy of the "letter before action" submitted by Simmons & Simmons on behalf of the UK Tobacco Industry to Secretary of State for Health, William Waldegrave. Obviously, the intent of a "letter before action" is to convince the UK government to abandon its attempt to use 6% of the surface areas for one health warning.

I will let you know what the response is from Mr. Waldegrave's office, as soon as I am informed.

Best personal regards.

Sincerely,

Anthony J. Andrade

Encl.
